Among the cherry branches A bird is stoging clear; A righty-breasted robin, The first bird of the year.

The sky is dork above him, And show is on the ground— Respring warmth in the breaus, Not pleasant sights around,

Speaking out in Dreams.

A correspondent of the Richmond Dispatch tells the following in a letter from one of the Springs:

An amusing incident occurred on the cars of the Virginia and Tennessee Road, which must be preserved in print. | spent It is too good to be lost. As the train entered the Big Tunnel, near this place, in accordance with the usual custom, a lamp was lit. A servant girl, accompanying her mistress, had sunk into ound slumber, but just as the lamp was lit she awoke; and, half asleep, imagined herself in the infernal regions. Frantic with fright, she implored her Maker to have merey on her, remarking at the same time, "the devil has got me at last!" Her mistress, sitting on the seat in front of the terrified negro, was deeply mortified, and called upon her: 'Mollie, don't make such a noise; it is I, be not afraid." The poor African immediately explaimed: "Oh missus, dat you; jest what I spected: I always thought if ebber I got to de bad place I would see you dar." These remarks were ultered with such vehemence that not a word was lost, and the whole coach became convulsed with laughter.

We give the following from the Boston Ledger, which is a warning to young men to be careful about their backward movements on "winged feet:"
